

# Study Tour –3 dams with sediment bypass tunnel–

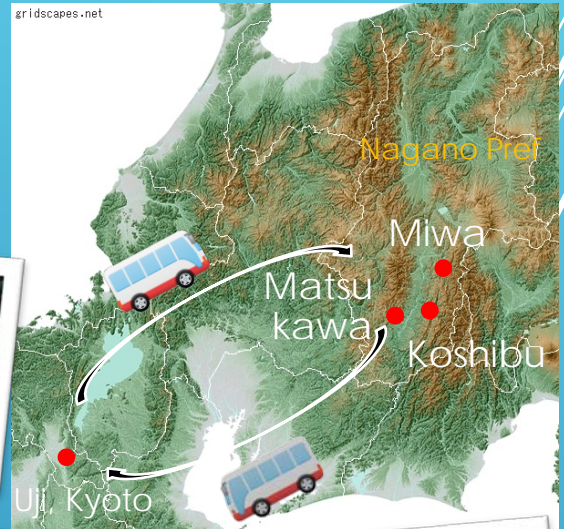

In this tour, we firstly move to Nagano Prefecture by bus after the closing of the workshop at Uji campus, Kyoto University. We will visit 3 dams with sediment bypass tunnel, and also visit up- and downstream areas of the dams to see sediment management practices. We hope to find the latest techniques and operation strategies, and exchange new ideas among international participants. You can relax in a famous hot-spring place on the 1<sup>st</sup> day night. In early May, mountains are expected to be colorful with flowers of peach and cherry blossom, and fresh and dark greens of tree leaves.

**Date** 10<sup>th</sup> to 12<sup>th</sup>, May 2017

**Total Fee** ¥ 45,000 Including transport, hotel, meal

**Registration website is open until 30<sup>th</sup> Apr**

**Up to 40 person can join**

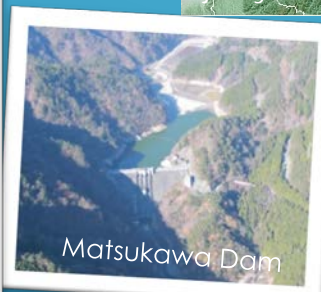

Cherry blossoms at Miwa dam

Miwa Dam

Upstream area of Tenryu
